Allowable Subject Matter

1. Claims 1-5 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art does not teach or suggest a starting arrangement as defined by the claims. As noted in the Board decision of March 30, 2006, the prior art does not teach the features of the pinion slip-off preventive structure used in combination with the starter structure defined in the preamble of claim 1. It is understood the starter structure recited in the preamble gives life and meaning to the claim, and therefore has been given patentable weight. Accordingly, the prior art does not teach the unique combination of a starter having a pinion splined to a pinion shaft, the pinion being urged in a direction toward a ring gear from a side remote therefrom by means of an elastic member, the pinion shaft having an end face, a projection portion extending from the end face of the pinion shaft in an axial direction, a groove formed on a smooth surface of the projection portion in a circumferential direction thereof, a snap ring fitted into the groove, a stopper having an abutting surface in abutting engagement with an end face of the pinion and an engaging portion engaged with the snap ring.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to William C. Joyce whose telephone number is (571) 272-7107. The examiner can normally be reached on Monday - Thursday 7:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Richard Ridley can be reached on (571) 272-6917. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
